

ANNEX II + III: TECHNICAL SPECIFICATIONS + TECHNICAL OFFER

Contract title: Supply of Visibility items for EUAM activities

Lot 2 – Promo Items

Publication reference: EuropeAid/139860/ID/SUP/UA (EUAM-18-47)

Columns 1-2 should be completed by the Contracting Authority

Columns 3-4 should be completed by the tenderer

Column 5 is reserved for the evaluation committee

Annex III - the Contractor's technical offer

The tenderers are requested to complete the template on the next pages:

- Column 2 is completed by the Contracting Authority and shows the required specifications (not to be modified by the tenderer),
- Column 3 is to be filled in by the tenderer and must detail what is offered (for example the words “compliant” or “yes” are not sufficient)
- Column 4 allows the tenderer to make comments on its proposed supply and to make eventual references to the documentation

The eventual documentation supplied should clearly indicate (highlight, mark) the models offered and the options included, if any, so that the evaluators can see the exact configuration. Link to the web site where the description of the proposed model exists is not enough. It is obligatory to add the detailed description of specification offered.

It is also obligatory to provide samples for each of the following items listed below: PI-1, PI-2, PI-3, PI-4, PI-5, PI-6, PI-7, PI-9, PI-10, PI-12, PI-14, PI-16, PI-17, PI-18, PI-19, PI-21, PI-26. Colours, dimensions of samples and the logo can be different from the colours, dimensions of items and the logo detailed below, but basic parameters and characteristics of items (custom design where required, type and quality of material, types of finishing/branding operations, etc.) shall be corresponding to requirements of the related items and shall not be of the quality lower than the quality requested.

Sample items submitted as part of Tenderer’s offer are to be submitted free of charge. Samples of the winning Tenderer will be retained for quality verification purposes for future deliveries; samples of unsuccessful Tenderer(s) will be returned if specifically requested by the Tenderer.

Offers that do not permit to identify precisely the models and the specifications and/or for which the samples as required above were not provided may be rejected by the Evaluation Committee.

The offer must be clear enough to allow the evaluators to make an easy comparison between the requested specifications and the offered specifications.

1. Item Number	2. Specifications Required ¹	4. Specifications Offered	5. Notes, remarks, ref to documentation	6. Evaluation Committee's notes
PI-1	<p>Reflective slap-on bracelet (ISO 20471:2013 compliant)</p> <p>Front side material: Reflective PVC Backside material: soft hypoallergenic material Colour: assorted rainbow colours Printing: 1+0, maximum 15 x 3 cm, EUAM website, Twitter and FB logos</p>
