16. Selection criteria

The following selection criteria will be applied to tenderers. In the case of tenders submitted by a consortium, these selection criteria will be applied to the consortium as a whole unless specified otherwise. The selection criteria will not be applied to natural persons and single-member companies when they are sub-contractors:

1) **Economic and financial capacity of tenderer** (based on i.a. item 3 of the Tender Form for a Supply Contract). In case of tenderer being a public body, equivalent information should be provided. The reference period, which will be taken into account, will be the last 3 (three) years for which accounts have been closed.

   The selection criteria for each tenderer are as follows:
   a) For the last three years for which accounts have been closed (2016, 2017, 2018) the average annual turnover of the tenderer must exceed 3,000,000.00 EUR.

2) **Professional capacity of tenderer** (based on i.a. items 4 and 5 of the Tender Form for a Supply Contract). The reference period, which will be taken into account, will be the last 3 (three) years from the submission deadline.

   The selection criteria for tenderers are as follows:
   a) Legal and professional capacity to perform the contract tendered for;
   b) At least 5 staff currently work for the tenderer in the field related to this contract.

3) **Technical capacity of tenderer** (based on i.a. items 5 and 6 of the Tender Form for a Supply Contract). The reference period, which will be taken into account, will be the last 3 (three) years from the submission deadline.

   The selection criteria for tenderers are as follows:
   a) The tenderer has successfully delivered supplies under at least 3 (three) contracts (the tenderer's proportion shall be greater than 100,000.00 EUR under each of the contracts) in the area of IT equipment, software and ancillary services.
This means that the contract the tenderer refers to could have been started or completed at any time during the indicated period, but it does not necessarily have to be started and completed during that period, nor implemented during the entire period. Tenderers are allowed to refer either to projects completed within the reference period (although started earlier) or to projects not yet completed. In the first case, the project will be considered in its whole if proper evidence of performance is provided (statement or certificate from the entity, which awarded the contract, final acceptance). In case of projects still on-going only the portion satisfactorily completed during the reference period will be taken into consideration. This portion will have to be supported by documentary evidence (similarly to projects completed) also detailing its value.

Capacity-providing entities

An economic operator may, where appropriate and for a particular contract, rely on the capacities of other entities, regardless of the legal nature of the links, which it has with them. Some examples of when it may not be considered appropriate by the Contracting Authority are when the tender rely in majority on the capacities of other entities or when they rely on key criteria. If the tender relies on other entities it must prove to the Contracting Authority that it will have at its disposal the resources necessary for performance of the contract, for example by producing a commitment on the part of those entities to place those resources at its disposal. Such entities, for instance the parent company of the economic operator, must respect the same rules of eligibility and notably that of nationality, as the economic operator relying on them and must comply with the selection criteria for which the economic operator relies on them. Furthermore, the data for this third entity for the relevant selection criterion should be included in the tender in a separate document. Proof of the capacity will also have to be furnished when requested by the Contracting Authority.

With regard to technical and professional criteria, a tenderer may only rely on the capacities of other entities where the latter will perform the tasks for which these capacities are required.

With regard to economic and financial criteria, the entities upon whose capacity the tenderer relies, become jointly and severally liable for the performance of the contract.

19. Deadline for submission of tenders

The candidate/tenderer's attention is drawn to the fact that there are two different systems for sending tenders: one is by post or private mail service, the other is by hand delivery.

In the first case, the tender must be sent before the date and time limit for submission, as evidenced by the postmark or deposit slip, but in the second case, it is the acknowledgment of receipt given at the time of the delivery of the tender, which will serve as proof.

The deadline for submission of tenders is **18th of September 2019 at 17:00 h by Kyiv time**.

Any tender submitted to the Contracting Authority after this deadline will not be considered.

The Contracting Authority may, for reasons of administrative efficiency, reject any application or tender submitted on time to the postal service but received, for any reason beyond the Contracting Authority's control, after the effective date of approval of the short-list report or of the evaluation report, if accepting applications or tenders that were submitted on time but arrived late would considerably delay the evaluation procedure (for instance when applications or tenders are received after the evaluation committee has finished its works and evaluating them would imply re-calling the evaluation committee) or jeopardise decisions already taken and notified.
