

PUBLIC OPINION SURVEY *for* *the* EU ADVISORY MISSION UKRAINE

METHODOLOGY

- Audience: Ukrainian citizens aged 18 and older in all regions except for the temporarily occupied territories of Crimea and Donbas, as well as territories where Ukrainian mobile communications were unavailable at the time of the survey. The results were weighted using current data from the State Statistics Service of Ukraine.
- The sample is representative in terms of age, gender and type of settlement.
- Sample size: **2,000 respondents.**
- Survey method: CATI (Computer Assisted Telephone Interviewing). Based on a random sample of mobile phone numbers. The margin of error for the study with a confidence level of 0.95: **no more than 2.2%**
- Dates: **31 July – 5 August 2025**

TRUST *in* ORGANISATIONS *and* INSTITUTIONS

TRUST *in* ORGANISATIONS *and* INSTITUTIONS

- **The European Union** (63%), the **IMF** (International Monetary Fund) (58%), **NATO** (54%), and the **Council of Europe** (53%) enjoy the highest levels of trust among Ukrainians. 40% of respondents expressed trust in the UN, and 37% in the OSCE.
- Among Ukrainian institutions, respondents place the most trust in the **National Guard of Ukraine** (84%) and the **Security Service of Ukraine** (78%). Trust is lower for the **courts** (the judicial system in general) (73%), the **Office of the Prosecutor General** (66%), and the **State Customs Service** (60%).
- Compared to 2024, trust indicators have increased across all institutions, except for the Office of the Prosecutor General, where a decrease is recorded.
- Young people demonstrate comparatively higher trust in all of the above institutions.

How much do you trust these organisations?

■ Completely trust ■ Rather trust ■ Don't know about the organization ■ Difficult to answer ■ Rather do not trust ■ Do not trust at all

How much do you trust these organisations?

Sum of 'Completely trust' and 'Rather trust' %

ASSESSMENTS *and* ATTITUDES TOWARDS REFORMS

ASSESSMENTS *and* ATTITUDES TOWARDS REFORMS

- 74% of respondents consider the Ukrainian authorities' efforts to implement reforms as insufficient, 21% regard them as sufficient, and 3% as excellent.
- Respondents expressed the highest satisfaction with the pace of digital transformation (70%) and progress in promoting gender equality (60%).
- Satisfaction levels were lower for the reform of the Security Service of Ukraine (47%), police reform (34%), and customs reform (31%).
- The least positive assessments concerned the fight against corruption (86% dissatisfied) and reforms of the judiciary and the prosecutor's office (71% dissatisfied).
- Compared to 2024, satisfaction with support for gender equality increased from 49% to 60%.

How do you assess the efforts of the Ukrainian authorities to implement reforms in Ukraine: excellent, sufficient, or insufficient?

How satisfied are you with the reform progress in these areas:

■ Completely satisfied ■ Rather satisfied ■ Difficult to answer ■ Rather not satisfied ■ Not at all satisfied

PERCEPTION *of* SUPPORT *from the* EU

PERCEPTION *of* SUPPORT *from the* EU

- According to 62% of respondents, the most relevant support from the European Union is in the area of **fighting corruption**. 44% believe it is support in investigating war crimes, 40% point to assistance for the liberated territories, and 39% highlight support for Ukraine in its EU accession process.
- 55% of respondents consider EU support in **strategic communication** to be the most **effective**, while 49% highlight consultations on **Ukraine's accession to the EU**. Other areas of effective support mentioned by respondents include the investigation of international crimes (44%), assistance for liberated territories that were affected by war (43%), support for the rule of law (41%), and efforts to improve the efficiency of border crossing points (40%).
- According to those surveyed, support in the area of fighting corruption remains the least effective, with 62% indicating this view.
- Compared to 2024, assessments of effectiveness have increased in several areas: strategic communication (from 44% to 55%), investigation of international crimes (from 38% to 45%), support for the rule of law (from 31% to 41%), improving the efficiency of border crossing points (from 33% to 39%), and fighting corruption (from 25% to 34%). At the same time, assistance to liberated territories is now assessed as less effective (from 49% to 43%).

EU ACCESSION

EU ACCESSION

- Overall, 68% of Ukrainians believe that the country **will be able to carry out the necessary reforms to join the EU**, while 31% hold the opposite view.
- Since March 2022, the share of respondents who believe that Ukraine will become a member of the European Union within one to two years has decreased from 61% to 8%, while the share of those who expect this to happen within five to ten years has increased from 4% to 31%.
- Among the main benefits of EU membership, Ukrainians most often cite **financial support** (37%), cooperation in security and defence (36%), anticorruption efforts (33%), security guarantees (31%), and economic cooperation (31%). Compared to 2024, the perceived importance of financial support (from 25% to 37%) and economic cooperation (from 27% to 31%) has increased, while the importance attached to anticorruption efforts (from 41% to 33%) and security guarantees (from 35% to 31%) has decreased.
- Opinions on the EU's interest in Ukraine's accession are divided: 50% of Ukrainians believe that the EU is interested in Ukraine's integration, while 48% take the opposite view.

How do you think, will Ukraine be able to carry out the reforms required to join the EU?

When do you think Ukraine will become a member of the European Union?

In your opinion, is the EU interested in Ukraine's accession?

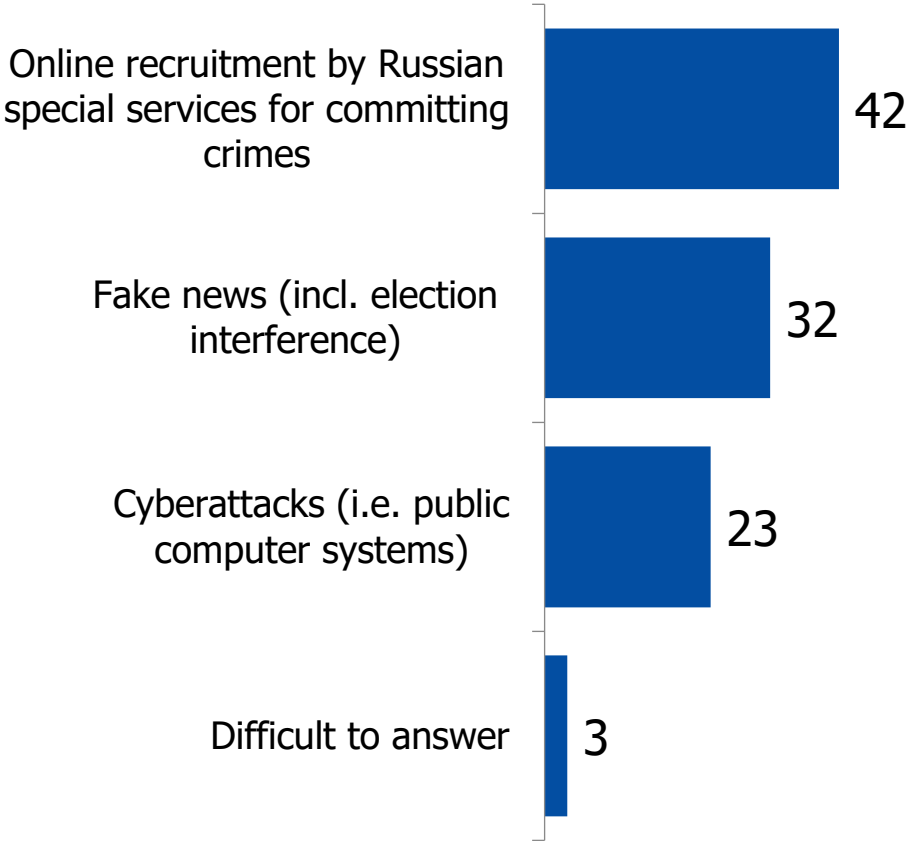

THREATS *and* CHALLENGES

THREATS *and* CHALLENGES

- Among Russian hybrid threats, respondents consider **online recruitment by Russian special services for committing crimes** to pose the greatest danger to Ukraine's security (42%). Other threats cited include fake news (including election interference) (32%) and cyberattacks (23%).
- 81% of respondents believe that the **hybrid threat** from Russia is **increasing**, while 13% think it is decreasing. 69% assess the threat level as high, 26% as medium, and 3% as low. According to two-thirds of those surveyed, Ukraine is moderately prepared to counter hybrid warfare from Russia. 14% believe Ukraine is well-prepared, while 16% consider it unprepared.
- Among the biggest **challenges** facing **veterans** in returning to civilian life, respondents most often mentioned **PTSD and stress** (63%), disability (54%), health problems (51%), unemployment (43%), alcoholism or drug addiction (40%). Less significant challenges include lack of respect (27%), violations of the law and involvement in crime (22%), domestic violence (19%), and limited access to education and training (12%).
- As the best forms of support for veterans, 62% of respondents identified rehabilitation, 47% employment opportunities, and 43% access to medical care. A further 27% mentioned support from veterans' communities, and 6% highlighted education and training.

Which of the following Russian hybrid threats do you consider the greatest concern for Ukraine's safety and security?

SOURCES *of* INFORMATION

SOURCES *of* INFORMATION

- **Telegram channels** are the most common source of information about **events in Ukraine** for respondents, with their share increasing from 47% in 2024 to 51%. Other frequently cited sources include YouTube broadcasts and blogger content (25%), personal networks such as friends, relatives, or colleagues (22%), and the national TV marathon – the joint broadcast of Ukrainian television channels (21%). Fewer than 20% of respondents reported relying on other sources.
- Fake news and disinformation are considered most prevalent on **social media platforms** such as Facebook and Instagram (58%), messenger channels (45%), television (27%), and online media (21%). Personal communication with friends, family, and colleagues was identified as a means of spreading fake news by 15% of respondents, while 5% cited radio and 5% newspapers and magazines. Compared to 2024, the share of those who view social media and messenger channels as sources of disinformation has increased (from 53% to 58% and from 35% to 45%, respectively), while the share citing television has decreased (from 32% to 27%).
- 84% of respondents are overall **concerned about the influence and spread of disinformation and “fake news” among the Ukrainian population**, while 16% are not concerned.
- When it comes to refuting disinformation or debunking fake news, respondents place the most trust in **independent journalists** (44%), the Centre for Countering Disinformation (42%), the Office of the President (26%), and international organisations (21%). Civil society organisations (14%), the Centre for Strategic Communications (11%), law enforcement agencies (9%), and opinion leaders/influencers (9%) were mentioned less frequently.
- Regarding networks and applications where respondents are subscribed to public channels to receive news and information about current events, 62% cited **Telegram**, 32% YouTube, and 22% Facebook. Other platforms were less popular: Viber (18%), Instagram (16%), and TikTok (14%). Fewer than 10% of respondents reported being subscribed to public channels on other networks or applications.

ASSESSMENT *of* **DISCRIMINATION LEVEL**

ASSESSMENT *of* DISCRIMINATION LEVEL

- On the issue of discrimination, 40% of respondents believe that **language-based discrimination** in Ukraine is widespread or fairly common, while 58% consider it rare or nonexistent. 27% see discrimination related to war disabilities as widespread, 26% say the same about discrimination based on religious beliefs, 25% about disabilities not related to the war, and 19% about gender. Overall, women are more likely to believe that each of these types of discrimination is widespread.

How widespread in Ukraine, in your opinion, is discrimination based on...

■ Widespread ■ Fairly common ■ Difficult to answer ■ Fairly rare ■ Nonexistent

How widespread in Ukraine, in your opinion, is discrimination based on...

Sum "Widespread", "Fairly common" %
